

18th November 2016

Dear Dr Butler

This letter is to confirm that the Steering Group for the Aberdeen Children of the 1950s study has granted approval for the release of data to Dr Jessica Butler and colleagues involved in the study: 'Selective schooling and long term health' as per application dated 22/19/2016. Release of data is in accordance with the terms and conditions noted in the application form. It is noted that this study requires linkage to SMR records held at ISD Scotland, and the applicants require PBPP approval for this process.

The Steering Group wish you well with your research and look forward to hearing of the results.

Yours sincerely

Heather Clark

Study Manager

Children of the 1950s study
